NSI SUPPORT SERVICES

Training Courses for NSI Approved Companies

NSI Support Services Ltd provides a range of training courses for NSI approved companies and for those working within the security and fire industries.

Training courses currently available are:

- BS7858: Security Screening Training Course- *New!*
- PD6662:2004 to PD 6662:2010 Transition changes - *New!*
- PD6662:2010 & BS 8243
- Product Auditing
- Internal Quality Auditing
- Introduction to BS 5839-1:2002 + A2:2008 and Basic Fire Detection & Alarm System Design Awareness

Coming Soon: E-Learning PD 6662:2004 to PD 6662:2010 Transition- £199 *(NSI Offer; £149 if booked in September 2012, includes a certificate and 2 hours of CPD training.)*

The New Security Screening course is designed for Individuals who have the task of Security Screening or reviewing the screening of job applicants to ensure compliance with BS7858.

The new 'Transition' course has been written to help companies transfer from PD6662:2004 to PD6662:2010 and provides an overview of the fundamental *changes* in the requirements. The course also includes an introduction to BS8243:2010 and DD263:2010.

Additional courses will be added to the NSI Support Services portfolio over the coming months but if you have any training need suggestions in the meantime, we would welcome your thoughts.

Trainers

Training courses are delivered by NSI's experienced Operations Managers:

| Steve Bell | Phil Peet | John Davidson | Chris Waller |
