

# NSI NACOSS Gold and Systems Silver Scheme Standards

**This document lists technical Standards and Codes of Practice that a NACOSS Gold or Systems Silver approved company (or applicant) is required to hold (or have immediate access to)**

**Note: This document does not list all the Standards and Codes of Practice that must be complied with in order to meet the rules of the NACOSS Gold and Systems Silver approval schemes (for example see PD 6662)**

## **Mandatory to hold**

BS 7858:2012 Code of Practice for security screening of personnel employed in a security environment

BS 7671:2008 + A3:2015 Requirement for electrical installations (IET Wiring Regulations) – 17th edition **OR** the IET On Site Guide

## **Intruder and Hold-up Alarm Systems - Mandatory to hold**

PD 6662:2010\* Scheme for the application of European standards for intrusion and hold-up alarm systems

BS EN 50131-1:2006 + A1:2009 Alarm systems – Intrusion and hold-up systems – Part 1: System requirements

DD CLC/TS 50131-7:2010 Alarm systems – Intrusion and hold-up systems – Part 7: Application guidelines

BS EN 50136-1-1:1998 + A2:2008 Alarm systems – Alarm transmission systems and equipment – Part 1-1: General requirements for alarm transmission systems

BS 8243:2010 + A1:2014 Installation and configuration of intruder and hold-up alarm systems designed to generate confirmed alarm conditions – Code of Practice

BS 8473:2006 + A2:2013 Intruder and hold-up alarm systems. Management of false alarms. Code of Practice

DD 263:2010 – Intruder and hold-up alarm systems – Commissioning, maintenance and remote support – Code of practice

\*Note: The PD 6662 Scheme provides for intruder and hold-up systems with wired and/or wire-free interconnections

## **Intruder and Hold-up Alarm Systems - Optional to hold depending on the work undertaken**

BS EN 50131-5-3:2005 + A1:2008 Alarm systems – Intrusion systems - Part 5-3: Requirements for interconnections equipment using radio frequency techniques

BS EN 50131-8:2009 Alarm systems – Intrusion and hold-up systems – Part 8: Security fog device/systems

BS EN 50136-1-2:1998 Alarm systems – Alarm transmission systems and equipment - Part 1-2: Requirements for systems using dedicated alarm paths

BS EN 50136-1-3:1998 Alarm systems – Alarm transmission systems and equipment - Part 1-3: Requirements for systems with digital communicators using the public switched telephone network

BS EN 50136-1-4:1998 Alarm systems – Alarm transmission systems and equipment – Part 1-4: Requirements for systems with voice communicators using the public switched telephone network

BS EN 50136-1-5:2008 Alarm systems – Alarm transmission systems and equipment – Part 1-5: Requirements for Packet Switched Network PSN

BS 4737: Section 4.3:1988 Code of Practice for exterior alarm systems

## NSI NACOSS Gold and Systems Silver Scheme Standards

### **CCTV Systems (NCP 104) - Mandatory to hold**

NSI Code of Practice NCP 104\*\* for the design, installation and maintenance of CCTV systems  
BS EN 50132-7:1996 Alarm systems - CCTV surveillance systems for use in security applications – Part 7: Application guidelines

### **CCTV Systems (BS8418 Detector Activated)– Mandatory to hold**

BS 8418:2015 Installation and remote monitoring of detector activated CCTV systems - Code of practice  
BS 7958:2009 Closed circuit television (CCTV) – Management and operation – Code of practice  
BS EN 62676-4:2015 - Video surveillance systems for use in security applications. Application guidelines

### **CCTV Systems – Guidance documents**

Home Office Surveillance Camera Code of Practice – June 2013 (available from [www.gov.uk](http://www.gov.uk))  
Home Office CCTV Operational Requirements Manual – 2009 (available from various websites).  
Information Commissioner's Office CCTV Code of Practice – 2014 (available from [www.ico.gov.uk](http://www.ico.gov.uk))

### **Access Control Systems – Mandatory to hold**

NSI Code of Practice NCP 109 for the design, installation and maintenance of access control systems

### **Access Control Systems – Optional to hold depending on the work undertaken**

BS EN 50133-1:1997 Alarm systems - Access control systems for use in security applications - Part 1: System requirements  
BS EN 50133-7:1999 Alarms systems - Access control systems for use in security applications - Part 7: Application guidelines

### **Scaffolding Alarm Systems – Optional to hold depending on the work undertaken**

NSI Code of Practice NCP 115 for the design, installation and maintenance of scaffolding alarm systems

### **Purchasing BSI Standards**

NSI can provide British Standards at a discount compared with British Standards Institution (BSI) non-member prices (discount may be subject to change without notice). Companies wishing to purchase paper copies of these Standards should email, write or telephone 01628 637512, Fax: 01628 773367, Email [nsi@nsi.org.uk](mailto:nsi@nsi.org.uk)

In addition NSI is able to offer an electronic British Standards subscription service in conjunction with the BSI. This service is available to NSI approved companies and companies who we have determined as applicants. The Standards accessible via this NSI service relate to NSI approval schemes only (i.e. not the full library of British Standards) and are offered at a preferential rate. To subscribe and obtain further details, go to the 'Information Centre' on the home page of the NSI website then click on the sub menu - Standards on Subscription. For queries, please contact the NSI applications team on 01628 764838 or [applications@nsi.org.uk](mailto:applications@nsi.org.uk).

### **Obtaining NSI Codes of Practice**

NSI Codes of Practice are available for download free of charge from the approved company area of the NSI website. If you do not yet have access to the approved area please email NSI at [nsi@nsi.org.uk](mailto:nsi@nsi.org.uk) or Fax: 01628 773367. We will then email electronic copies to you. There is a small charge for paper copies.
