

GET APPRENTICE AWARE IN 2014

Home grow your own robust, long-lasting **talent pipeline** that will become instrumental in taking your business forward.

3 simple steps to success with apprenticeships

ENGINEERS OF TOMORROW
100 in 100
Apprenticeships
PLACING 100 APPRENTICES IN 100 DAYS

1 Advertise your vacancy on the National Apprenticeship Portal

2 Receive up to £1500 towards training costs from the Government

3 Employ your chosen apprentice from £8k per year

Two thirds of apprentices stay with the same employer after completing their apprenticeship

Two thirds of employers say apprentices bring **new ideas, better morale among staff and improved staff retention**

Year 1

Businesses report that in the first year apprentices are useful, enthusiastic and a cost effective extra pair of hands.

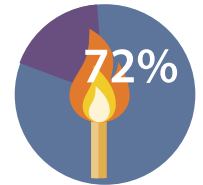

Year 2

Your apprentice's skills will be more developed and moulded to the exact requirements of your business. Their increased confidence means they share new ideas and approaches.

Year 3

Your apprentice has flourished and become a valuable member of the team. They embrace industry changes, to adapt their expertise to new technology and show signs of becoming a potential future leader in your business.

ignite productivity

72% of businesses report improved productivity as a result of employing an apprentice.
